Dear Mr Wee

Your Praxis program for East Spring Secondary School in 2003 was well received by the pupils. Many of the students who participated enjoyed the learning experience. The most unexpected comment came from the Normal Technical students who pleasantly said that after the course they know more about how to plan for their future and has a better understanding of certain financial terms.

The Accounts student were excited and was able to have a better idea of how what they have learnt in accounts may be used in real life through the simulated game in Praxis.

Warmest Regards

Lee Wei Wei
Teacher
